tailored to **your** pet's needs

Healthy Pets Club Terms and Conditions

- Membership runs for twelve months from the date of joining. Subscriptions are collected by monthly Direct Debit.
- The amount payable may change in subsequent years to take account of body weight changes (dogs only) or plan price changes (all pets). Subscriptions prices are reviewed every April. Changes will not affect those already on the scheme for their policy year but will take effect when the policy is renewed for the next policy year.
- We will aim to inform you in writing of your approaching renewal, and will inform you in writing of any proposed price changes but it is the client's responsibility to ensure that all contact details, for postal, telephone and e-mail communications, held by Abbotskerswell Veterinary Centre are correct and up to date. Abbotskerswell Veterinary Centre will not be held liable for health club reminders not arriving, for any reason whatsoever. The membership will continue, providing that the price does not change, unless we hear from you that you wish to cancel.
- The flea and tick treatments included in the scheme for dogs are: three 4 pack's of Activyl/Activyl Tick +; two 'Seresto collars'; four doses of Bravecto per 12 month period. The flea (and tick) treatments included in the scheme for cats are: three 4 pack's of Activyl; two 'Seresto collars'; two injections of "Program"; or two 6-packs of Broadline (which includes deworming as well). The worming treatment included in the scheme is 'Milbemax' tablets, 4 treatments per 12 month period. Any alternatives to these products is at the discretion of the prescribing veterinary surgeon and will only usually be made if the above products are deemed inappropriate by the prescribing veterinary surgeon (eg, previous adverse reaction, inappropriate dosing for size of patient).
- Abbotskerswell Veterinary Centre reserves the right to alter the specific products supplied to members to take account of new products available (eg brand of flea treatment or wormer).
- In the event membership is cancelled before the end of a twelve month period, Abbotskerswell Veterinary Centre reserves the right to invoice the owner for the full cost of all goods and services supplied in that part year, or request that the full years membership fee (monthly fee x 12) is paid in full - whichever is the greater.
- This is a non-refundable offer, and the 'Healthy Pets Club' discounts cannot be used in conjunction with any other offer/discount.
- Members discount entitlements are not transferable to other pets or persons. Membership benefits are not to be used for any other animal, other than that of the pet registered with the 'Healthy Pets Club'.
- The Healthy Pets Club is for routine vaccination & anti-parasitic treatment and biannual health checks. It is not pet insurance. We strongly recommend and support pet insurance
- This program is only applicable to cats and dogs and does not include vaccinations against Rabies, or Chlamydia.
- It is the client's responsibility to ensure that vaccinations are kept up to date. Abbotskerswell Veterinary Centre will endeavour to issue timely reminders, but it is the client's responsibility to ensure the contact details, for both postal and telephone communications, held by Abbotskerswell Veterinary Centre are correct and up to date. Abbotskerswell Veterinary Centre will not be held liable for vaccination reminders not arriving, for any reason whatsoever.
- If during any stage of the 'Healthy Pets Club' your pet is overdue for one of its scheduled injections/boosters, according to manufacturers' recommendations, it will be necessary to re-start the original course of vaccinations again. If this is the case, the cost of the re-start course will have to be paid in full before re-commencing on the 'Healthy Pets Club' programme.
- The 'free 6 monthly health check' - is a free general health check for those patients that are deemed reasonably healthy. It is not a free consultation to discuss in-depth/multiple problems or conditions - in these cases there will be a consultation charge.
